Profile

Computer Science student (5th semester) at the University of Rostock with strong practical programming experience and a proven ability to learn new technologies quickly. Seeking a practical internship to apply software development, testing, and problem-solving skills in a professional environment. I am particularly interested in cybersecurity and solving complex technical challenges. I am a proactive team player with a strong commitment to continuous learning and professional growth.

Education

Bachelor of Science in Computer Science

University of Rostock, Rostock

since 10/2024

- Currently in the 5th semester
- Current GPA: 1.8 (after 4 completed semesters)

Practical Experience

Homework Grader – Algorithms and Data Structures

University of Rostock, Rostock

04/2026 – 06/2026

- Graded and provided feedback on homework assignments in algorithms and data structures

Homework Grader – Imperative Programming (starting 10/2026)

University of Rostock, Rostock

10/2026 – 12/2026

- Scheduled to grade and provide feedback on homework assignments in imperative programming

Industry internship

Punker GmbH, Eckernförde

10/2022

- Supported workshop and production tasks while gaining insight into industrial manufacturing and quality control

Projects

Personal Portfolio Projects

Selected projects available on my portfolio and GitHub (links above). Highlights include:

- **Web Portfolio** — Personal website built with HTML, CSS, and JavaScript to showcase projects and documentation.
- **Scrum board** — Developed a simple Scrum board application to visualize and manage project tasks (Java/Python), including user interaction and data persistence.
- **Mini-SIEM** — Security log analyzer built with Python, FastAPI, SQLite, HTML, and JavaScript. Ingests SSH and HTTP logs, detects brute-force attacks and port scans, and presents prioritized alerts with configurable rules, event search, timelines, and JSON/CSV export.

Secondary Education

General Higher Education Entrance Qualification (Abitur) (grade: 1.6)

Jungmannschule, Eckernförde

06/2024

Skills

Programming: Java, Python, C, JavaScript, SQL, Prolog, CSS, Haskell

Tools & Technologies: Git, LaTeX, Linux, VS Code

Software Practices: Unit testing, version control workflows, basic CI concepts

Languages: German (native), English (C1.1)

Availability

Available for a 20-week internship starting from 1.4.2027. Full-time commitment possible; relocation or remote work negotiable.
